COLLECTION OVERVIEW

Art is transportational and transformative. It has the power to spark conversation, evoke emotion and expand perceptions; to elevate a room from a place of simple function to one of comfort, joy and connection.

Drawing inspiration from the work of the Old Masters, the Artiste Grande collection is a study in colour, character and craft, designed to anchor your space in artful sophistication.

Artiste Grande celebrates the inherent beauty of timber, with organic knots and subtle cracks giving distinctive character to every plank, enabling you to create a floor that is truly a bespoke work of art. The varying textures and depths create a dynamic canvas underfoot, interacting with light throughout the day to reveal new details and dimensions. The effect is a living surface that evolves with your home, offering continuous visual interest and a connection to the natural world.

Whether you're embarking on a grand new build or undertaking a thoughtful renovation, Artiste Grande offers as much versatility and performance as it does beauty. Available in wide planks, classic Herringbone, and elegant Chevron, it adapts to any design vision, while a durable, low-maintenance lacquer finish combines aesthetic appeal with everyday practicality.
